

GRACE HOSPITAL
FOUNDATION

Fact Sheet

Your gift to Grace Hospital Foundation directly supports patient-related enhancements that would not otherwise be provided by the government, and helps guarantee every patient at The Grace has access to the best care possible.

Current Project

Your support goes towards our Tomorrow's Grace \$6 million campaign, the largest and most important campaign we have ever undertaken for Grace Hospital. Your gift will help build a new 37,000-square-foot Emergency Department to assist more than 25,000 patients every year and an MRI Suite that will offer the very best in diagnostic technology. The campaign's success will ensure our community continues to enjoy the very best in health care, today and for decades to come.

Major Past Projects

Your support funds several major capital projects aiming to better the quality of improvements to Grace Hospital. Over the past decade, your support has provided:

- **\$2.5 million** to build Grace Hospice
- **\$1 million** CT Scanner
- **\$700,000** to build a Clinical Simulation Lab in our Emergency Department
- **\$550,000** to upgrade our General Operating Room Suites
- **\$500,000** to upgrade our Urology Operating Room Suite
- **\$150,000** to outfit the entire facility with wireless capability

Equipment Purchases

Your support provides more than \$250,000 each year for Grace Hospital's medical equipment "Wish List," which includes items such as "WOWs" (Workstations On Wheels), bladder scanners, lifts, pumps, and beds. Your support helps assure Grace Hospital has the most up-to-date equipment.

Research & Education

Your support provides a \$10,000 annual grant for research projects conducted on-site at Grace Hospital. This research has a tangible impact on care at the Grace.

In the past, your support provided a \$100,000 "Sim Man", a highly specialized mannequin that responds to clinical procedures just like the human body, that is used by our health care professionals for training purposes so they learn and practice the best skills possible.

Programs

Your support provides \$18,000 each year in special programs for Grace Hospital, such as the Music Therapy Program administered through Manitoba Artists in Health Care. Thanks to your support, these programs can provide great comfort and enjoyment to our patients.
